**FairWarning® to Host UK Webinar on Privacy and Security in the NHS  
and How Leading Organisations are Protecting Patient Privacy**

*Webinar to Feature NHS Lothian case study presented by Northgate Managed Services*

**WHAT:** FairWarning, Inc. a global provider of healthcare privacy auditing solutions, in conjunction with NHS Lothian and Northgate Managed Services, will host a Webinar titled Privacy & Security in the NHS: How Leading Organisations are Protecting Patient Privacy.”

**DATE:** Tuesday, July 20, 2010

**TIME:** 2:00 PM GMT Summer Time

**WHY:** With the number of data breaches reported to the Information Commissioner's Office passing 1000, and ongoing concern about data security in the media, patient privacy is top of mind for healthcare organisations today. NHS Lothian and other organisations are taking proactive steps to protect patient privacy using privacy breach detection technology. The webinar will offer best practices in patient privacy from the world's leading healthcare organisations, introduce a framework for protecting patient privacy, and explore how privacy auditing can reduce the risk of privacy breaches.

Attendees can expect to:

- Gain a greater understanding of emerging privacy and security threats to healthcare organisations and their patients
- Learn best practices in patient privacy through an NHS Lothian case study presented by Northgate Managed Services
- Review and glean insights from an established global framework for protecting patient privacy
- Explore the importance of building privacy and security into the foundational fabric of healthcare and,
- Discover how privacy auditing can reduce the risk of privacy breaches.

**REGISTRATION:** There is no registration fee for your attendance at this educational webinar, Registrants will automatically be sent a replay of the webinar as well as the materials, even if they cannot attend live. Pre-registration is now open and required (paste this link in a Web browser):
