

Andy Swenson – FairWarning Solutions Advisory Board

Director of Information Security and Infrastructure, Tribridge Consulting

Andy has overall responsibility for the development and management of the Information Security and Infrastructure Practice at Tribridge. Andy has over 20 years of information technology experience with middle market and Fortune 500 companies. His experience includes all aspects of information technology, including information security and infrastructure services, strategic planning, new product development, and project management.

Prior to joining Tribridge, Andy founded Integration Specialists, Inc. (ISI), which was acquired by Tribridge in July 2003. ISI specialized in information security and infrastructure services. Prior to founding ISI, Andy served as Vice President and Chief Information Officer with two public companies – Sykes Enterprises, Inc. and ABR Information Services, Inc.

Andy holds a Bachelor of Science in Computer Science from Coleman College in San Diego, California and a Telecommunications Management Certification from Christian Brothers College in Memphis, Tennessee.
