**FairWarning® Released for Red Hat;
Red Hat Ready certification part of FairWarning® F.A.S.T solution vision**

ST. PETERSBURG, Fla.--(BUSINESS WIRE)--March 28, 2006-- FairWarning, Inc., a leading provider of security information management solutions announced today that the company's flagship product FairWarning™ has been accepted to the Red Hat Ready program. FairWarning® improves information security and compliance responsiveness by consolidating security logs, monitoring for common security incidents and enabling rapid forensics investigation. FairWarning's announced support for Red Hat Linux is part of FairWarning's F.A.S.T. product vision.

"FairWarning customers want us to be F.A.S.T. - Flexible, Affordable, Scaleable and Trusted. By leveraging the Red Hat platform, FairWarning® provides best-of-class scale and security at an affordable cost of acquisition and ownership", said Jennifer Stansbury, a spokesperson for FairWarning®.

Driven by mounting regulations like HIPAA, Sarbanes Oxley, GLBA, California State Bill 1386, the Patriot Act, the Bank Secrecy Act and Basel II, centralizing audit logs, monitoring for common security incidents and rapid forensics investigation have become essential security initiatives for publicly held companies as well as organizations in heavily regulated industries such as healthcare and financial services.

FairWarning® offers an affordable managed service or an agent-less, easy-to-deploy software option, both of which are attractive solutions for institutions of all sizes.
