

**FOR IMMEDIATE RELEASE**

**FairWarning® Announces Support for Imprivata OneSign  
Solution Streamlines HIPAA Privacy Audits Involving Healthcare Applications**

**St. Petersburg, FL** – (February 7, 2006) - FairWarning, Inc., a leading provider of HIPAA privacy audit and log centralization solutions, announced today that the company's privacy auditing solutions have been extended to support Imprivata OneSign™. Lexington, MA based Imprivata, [www.imprivata.com](http://www.imprivata.com), is the industry's leading appliance based single sign on solution.

Healthcare providers continue to streamline and secure access to their applications through enterprise single sign on. Now, healthcare providers can leverage their investment to streamline HIPAA privacy audits involving applications which touch protected health information. FairWarning® privacy auditing solutions which centralize audit information from a wide range of applications, access devices and systems can now leverage Imprivata OneSign's detailed access logs to enable organizations to create comprehensive forensic audit trails including granular information on every user, application or workstation. The combined solution also enables organizations to extend OneSign's reporting capabilities to produce information security analytics as well as monitor for common security incidents.

"FairWarning's support of Imprivata OneSign™ results in a comprehensive and easy to deploy solution for enterprise single sign on and streamlined compliance auditing," said Andy Swenson, managing director of security for Tribridge Consulting. "Application security and auditing can be a complex challenge, but the combined solution of FairWarning™ and Imprivata OneSign™ makes it easy and affordable".

"We are delighted that FairWarning® has extended OneSign's capabilities in performing granular and comprehensive HIPAA privacy audits across healthcare applications, systems and access devices. We believe FairWarning's announced support is another proof point that Imprivata OneSign™ is the market leader in appliance based enterprise single sign on solutions", said David Ting, chief technology officer of Imprivata, Inc..
